MORE BOOTHING, LESS SEARCHING

PRESS RELEASE

Photo Booth finding service gives brides, party holders and event planners amazing choice whilst saving them time and money!

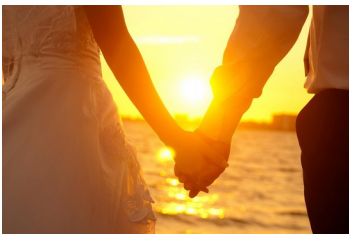

Photobooth Finder is a free online service created by a dedicated team of photo booth enthusiasts to make it easier for people to find, compare and contact local photo booth operators.

Photobooth Finder's search function is customisable to users requirements making it easy to find local operators who offer their preferred type of photo booth. Easy to compare operator listings are packed with useful information and pictures so they can make an informed choice about which operators to add to their short-list for contacting. Users then fill in one simple enquiry form which is automatically sent to all their short-listed photo booth operators who will get back to them with a quote and availability.

Photobooth Finder offers every user a free customised spreadsheet for them to record quotes in as replies come back from their short-listed operators. All that's left to do then is book with the operator they decide on.

A photo booth has become the must have item for the modern day wedding, party, school formal or corporate event. This has seen the photo booth industry grow from just a handful of operators in 2007 to more than 500 today. Gone are the days of limited choice, now photo booths come in a wide array of sizes, shapes, options and functionality which all make finding the perfect one harder than ever. An internet search yields endless pages of results and without Photobooth Finder hours could be spent finding and researching photo booth operators.

Photobooth Finder makes finding the perfect photo booth easy again whilst saving our users time and money.
